

CONTRACT TRUST CALL #107

November 14, 2020

RECORD

DISCLAIMER Hello Everyone. Today is Saturday, November 14, 2020. Welcome to our Contract Trust Conference Call. We are not accountants, tax professionals, lawyers or currency dealers. We are not engaged in rendering legal, tax, accounting or other professional advice. Should you require those services, you should retain competent advice from a professional in that field.

WELCOME Thanks for joining us today. My name is Carol Werelius and my associate Jim Knox and I have these calls every 2nd and 4th Saturday of the month. These calls are recorded and available on our website, [www.indicator information.com](http://www.indicatorinformation.com), iqdcalls.com and YouTube. As we get closer and closer to our expected event, we thought this would be a good time to review our Common Law Contract Trust, and why we think it is the best vehicle for you to protect your assets. As always, your questions are welcome. *6 to raise your hand.

We are going to change things up a bit today. We will be doing Q & A for most of the call, so please have your questions about Trusts ready. We need to end this call promptly at the top of the hour. We will NOT be taking questions about the event, as we really don't know much more than you do. We cannot give you advice or direction on what to do at your exchange. At this point, if you are paying attention, you no doubt know as much or more than we do. If you are looking for more information, we suggest you listen to Charlie Ward, Bruce, Fleming, TNT etc.

What we are offering you is absolutely the best asset protection available at a very fair price of only \$1995. Years ago, we were getting up to \$10,000 for these Trusts. People paid it because it they recognized the value. We have reduced these prices for Dinarians, because we realize, a lot of people in this situation may be currency poor. Our Trust has a long standing pedigree, that to our knowledge, no one else can claim.

So, let's talk about Trusts.

Most of you that are our current are aware that we work from home. That does not mean that we are available 24/7. We understand that many new people listen to these calls that are posted on IQD Calls and YouTube, are not aware of that, so this is for them. We have gotten calls as early as 6:30 in the morning and 11 at night. This is just plain rude in anyone's mind. So, please don't call outside of normal business hours. The call in number for these calls is 609-663-5453 (*no code necessary*).

As you know, we generally have calls every second and fourth Saturday of the month. That is not the case for the rest of the year. The 4th Saturday of November is Thanksgiving weekend, and I will be visiting family in Florida. The 4th Saturday of December is the 26th, Christmas weekend and coincidentally, Jim's birthday. Our first call in 2021 will be January 9th.

Thanks to all for you for you time and attention. My name is Carol Werelius. aThe best way to reach me is by email. info@indicatorinformation.com. Have happy and safe Thanksgiving! Go RV!
