

CONTRACT TRUST CALL #177
January 27, 2024

RECORD

DISCLAIMER Hello Everyone. Today is Saturday, January 27, 2024. Welcome to our Contract Trust Conference Call #177 . We are not accountants, tax professionals, lawyers or currency dealers. We are not engaged in rendering legal, tax, accounting or other professional advice. Should you require those services, you should retain competent advice from a professional in that field.

WELCOME Thanks for joining us today. We are Indicator Information Institute. My name is Carol Werelius and Jim Knox and I have had these calls every 2nd and 4th Saturday of the month. These calls are recorded and available on our websites, www.indicatorinformation.com, www.indicator-calls.com and www.iicalls.com. The next call is always posted on the website. As we get closer and closer to our expected windfall event, we thought this would be a good time to review our Common Law Contract Trust, and why we think it is the best vehicle for you to protect your assets.

It does appear once again, they this thing is very, very close. Those of you who know me, know that I typically don't get too excited about news that it's happening now! Been down that road too many times. But, we are going away from our stance not to discuss the actual exchange today. I'm sure many of you have lots of questions, so please write them down or press *6 to raise your hand during this call.

We are still happy to answer your Trust questions, that's why we're here.

1. There's so much news out there right now, from banks actually admitting they know about the impending RV, to cashing out small bills, from notifications will be sent any time now. Personally, I have no knowledge

about any of those things, just information I've heard or read on social media. So, while I'm not quite to the jumping up and down stage, I do feel its time to make sure we are prepared.

2. I do feel that it is important to start with the basics. Do you need a Trust? Some say no, most say yes, if you are expecting more than 1 million dollars from your exchange. That is technically correct, but from now on I'll refer to it only as exchange. Some still say you will be provided with a Trust at your appointment if you need one. Some say no. Why wait and take the chance that you may be turned away if you are not properly prepared with a valid Trust in your hands.
3. That's where we come in. We offer an Irrevocable Common Law Contract Business Trust. It is a mouthful, so we refer to it mostly as a Contract Trust or just a Trust.
4. There are many different entities and trusts out there, all have their pros and cons. We feel that our Contract Trust offers you the best in privacy, anonymity and flexibility.
5. Our Contract Trust has a provision to live on for eternity.
6. Total control of the trust property resides with the Trustee. You are eligible to be the Trustee. Trust owns property, you manage it as Trustee. There is no one between you and your money.
7. The initial exchange avoids Capital Gains taxes.
8. Trust Certificate Units have no determinable fair market value at the time of exchange. Certificate Holders are entitled to distribution of Trust proceeds by the Trustees.
9. It has a proven court history, is an authentic legal contract, better than an agreement.
10. It creates an estate vehicle and or a legal business entity and has the option to operate as a business or Holding Company.

11. Contract Trusts can pass on assets (property) in perpetuity and benefit numerous persons, thus creating generational wealth.
12. It can protect assets from creditors, you as Trustee only manage, not own, the assets.
13. Our Contract Trust is a planning tool to use for life, not just for estate planning. We feel it provides the best available protection for you and your family.
14. Now that I have that out of the way, let's move on to the exchange and what to expect. Again, I have no firsthand knowledge of this, just sharing what I've heard.
15. First off, making the appointment. Years ago, we heard that we would be getting 800 numbers via email. That has changed in the last few years. What I hear now is that there will be about 400,000 emails going out from Wells Fargo. If you bought any currency or Zim from a licensed dealer, you are most likely on that list. If you do not receive that email, it will be on several websites and Jim & I will do our best to send it to our clients. The email will direct you to a safe-link website. You MAY share that email or safe-link website. You will need to identify yourself. They may use public knowledge to determine if its really you. Like were you ever associated with any of these addresses, etc. You will tell them where you are located or where you would like to exchange. It has been suggested that you may not want to exchange in your local area, but maybe something a little further away to protect your privacy and anonymity. At some point, you will be given an 800 number that is unique to you. DO NOT SHARE that number. When you call that number you will make the final arrangements for your exchange appointment. I understand that number will not work after that first call, so get all your information down as you are speaking. Be sure to confirm the information you are getting.
16. You may NOT bring your cell phones or laptops to the exchange. This is a private event and absolutely no recordings are allowed. You can bring a handheld calculator. Bring a couple of blue ink pens. They are saying your appointment should be less than 30 minutes. Personally, I think that is the

actual exchange part of the appointment. I think we will be meeting with advisors, bankers, Trust Management representatives after the initial exchange, but that's just my opinion.

17. They are going to want you to prove your identity, with 2 forms of photo ID, like drivers license and passport. Also, a couple of bills to prove your address. Utility bills, cell phone bills, etc. I have heard that they will be doing some kind of biometric scan to see "where your heart is", so to speak.
18. They will be doing background checks on everyone. If you have not completed a Customer Information Sheet, there are plenty of them on the Internet. If you don't do it ahead of time, they may ask you to complete one while you're there.
19. You may want to provide a short resume or vision on what you plan to do with these funds. This is very much like a cover sheet for a job application. Mine is one page, some info about my husband Jay and myself, this Trust business, NOAH, the foundation we created several years ago, and our general goals and objectives. Like any application, tell them you plan on creating "long term, mutually beneficial relationships".
20. It has been suggested that you have a Tally sheet for all your currencies. You should have them all bundled, from smallest to largest or largest to smallest, whichever works for you.
21. If you have Zim, be prepared with an idea or plan for a humanitarian project.
22. What I've heard many times is that the QFS or Quantum Financial System will be in play when we do this exchange. They will be monitoring ALL financial transactions once this occurs. While we be monitored by that system, we won't have QFS accounts, per se. We won't have much use for retail banks as we know them, but we will still have "accounts". So, you may want to provide banking information with accounts you have may opened. I believe we will be given debit cards for each account or currency. Those cards will be used primarily for moving money from one account to another.

23. You should be prepared with an immediate needs list. Also what needs you anticipate for the next 6 months.
24. You may request Personal Banking Assistance.
25. Some of you may think you can handle all this money on your own. I strongly advise against that. You will want to work with a Trust Management Company. I have heard that you will be assigned one at your Exchange, but you do not have to commit to a long term relationship with them unless you want to. You can do some due diligence on the Internet beforehand, but they won't even speak to you if you "are expecting" money.
26. You will have to sign an NDA. You will not be allowed to exchange without doing so.
27. I have also heard we have one shot at this exchange. You cannot go to a bank and exchange one 25k dinar note for some walking around money. If you are desperate for the money before your appointment, let someone else do it for you. There is also a time limit on how long this will last. I've heard 10 days. Don't hold onto it, expecting the rate to go up.
28. I think that about wraps up what I expect to happen, based on what I've heard and read.
29. So Jim, what would you like to add today?
30. Q & A. Please no questions about login issues. If you are having difficulty logging in to the website, go to www.3itrustapp.com, login issues. Jim will respond shortly. Be sure you are not using a VPN for another country. You cannot change your password. The login does not work on all phones. Again, we strongly recommend you use Roboform or any other password manager. Also, please no more questions about what to expect at your exchange once the RV has begun. I have shared the latest information that I've heard. Once the RV has occurred we will send a blast email to all our clients. After that, we will be under our own NDAs, so please do not ask for our advice about anything, except Trusts. Be very careful about the words

you choose, as they may violate our NDAs and you and we would be subject to losing whatever we may have received.

31. We will be taking some time off to attend to our own exchanges and business. Should you decide you would like to apply for a Trust, just go to 3itrustapp.com and complete an application. They will all be date stamped and completed on a first come, first served basis. Many of you have mentioned referrals. We will not be taking any new clients, except referrals post RV. Be sure to tell your friends that you sent them.

Right now, typical turnaround time is less than a week, but I expect that to be considerably longer post RV. Our Contract Trusts are still well priced at only \$1995 for new clients, and \$1795 for additional Trusts. We also offer a \$300 referral fee for any fully paid new Trust.

Initially, all you need is a Motherlode Trust, which holds your currency and will be the Trust you use at your exchange. You will probably want additional Trusts in the future such as Management Trusts, Real Estate, Vehicle, Annuity, Charitable Trusts, etc.

Thanks for your time and attention. My name is Carol Werelius. My number is 877-333-5018 or 206-915-4236. I am available between 10 and 6 Eastern time, Monday through Friday. The best way to reach me is by email. info@indicatorinformation.com. Have a happy and safe weekend! Go RV and God Bless America!
